FAST GLASS

How does a group of Californian surfer dudes with no jobs afford the best boards, clothes, fast cars and hot chicks? Fast planes, bad-ass attitudes and fearless flying come together as they race across the golden state to deliver millions of dollars worth of crystal meth in an unforgettable thrill ride that will leave you breathless!

FAST GLASS is the story of bad boys who get a chance to redeem themselves by being badder than they've ever been before.

FAST GLASS is *THE FAST AND THE FURIOUS* meets *TOP GUN* with an attitude!

ANDREW KEEGAN (*10 Things I Hate About You, Seventh Heaven*) stars as Sean Strayger — a young good-looking surfer dude, who together with his pals, Rain Man (**BRANDON QUINN**, *The OC*) and Forman (**NICK CARTER**, *Back Street Boys, The House of Carters*) are The Flyguyz. Their incredible, fun-in-the-sun lifestyle is financed by delivering crystal meth for the elusive Escondido — a fighter jet-flying, “south of the border” drug lord played by latin heart throb **CHRISTIAN MONZON** (*XXX2, Dolce & Gabbana*). Risking their lives, they zoom across southern California in tricked out, high-tech experimental airplanes. It's non-stop partying with fast women and even faster cars until Rosanna Ramirez (**NATALIA CIGLIUTI**, *All My Children, Saved by the Bell*), an undercover DEA agent, arrives on scene to steal Strayger's heart and puts a stop to his drug delivery business.

After a massive multi-agent drug bust, in which Forman (the life of the party) gets killed, what's left of the Flyguyz's group is hauled into DEA central where Moore (**GREG GRUNBERG**, *Heroes, Alias, Mission Impossible III*), the head of the agency, gives Strayger a choice: Go to prison with your two remaining friends or cooperate with the authorities and fly a non-sanctioned covert mission for the agency.

The mission... to fly into Mexico and rescue Kyle Jackson (**RENO WILSON**, *Heist, Blind Justice, White Boyz*), a DEA agent who is being held hostage by Escondido.

Also featuring **JOSHUA ALBA** (*Alpha Dog, Unrest*) and a supporting cast of Hollywood's hottest young talents.

FAST GLASS is a corrupt coming of age story about a band of buddies who thought they could cut corners on the climb to the top by pushing the envelope and living life higher, faster and harder than the law allows.

FAST GLASS is written and directed by **KIM BASS** (*In Living Color, Sister-Sister, Succubus Hell-Bent*) and features non-stop edge of your seat excitement delivered at the speed of flight.
